Index for Volume 47 (1976)

This index is composed of the following three subindexes: I. Bibliographical Index; II. Author Index; and III. Topic Index.

Entries in the bibliographical index have been alphabetized by the last name of the author or, in the case of multiple authors, by the last name of the senior (first) author. Reference information includes the name(s) of the author(s), title of the article, the month of publication, and the page on which it begins.

The author index cites the name of each author included in the volume, followed by the month(s) of publication and the page(s) on which the article(s) begin.

In the topic index, each article is listed under those important subjects about which the article provides information. The numbers refer to the initial page of the article(s) in which the topic is discussed.

I. BIBLIOGRAPHICAL INDEX

Alexander, Marion J. L. Relationship of somatotype and selected anthropometric measures to basketball performance in highly skilled females. Dec. 575.

Allen, T. Earl, Byrd, Ronald J., and Smith, Douglas P. Hemodynamic consequences of circuit weight training. Oct. 299.

Andzel, Walter D., and Gutin, Bernard. Prior exercise and endurance performance: A test of the mobilization hypothesis. May 269.

Bain, Linda L. An instrument for identifying implicit values in physical education programs. Oct. 307.

Bain, Linda L. Description of the hidden curriculum in secondary physical education. May 154.

Basler, Marilyn L., Fisher, A. Craig, and Mumford, Nancy L. Arousal and anxiety correlates of gymnastic performance. Dec. 586.

Biscan, Dianne V., and Hoffman, Shirl J. Movement analysis as a generic ability of physical education teachers and students. May 161.

Boileau, Richard A., Ballard, Joyce E., Sprague, Robert L., Sleator, Esther K., and Massey, Benjamin H. Effect of methylphenidate on cardiorespiratory responses in hyperactive children. Dec. 590.

Bole, Ronald. Post-KR delay intervals and mental practice: A test of Adams' closed loop theory. Oct. 316.

Brodie, David. A simple stabilometer modification for qualitative recordings. Dec. 850.

Buchanan, Hugh Troy, Blankenbaker, Joe, and Cotten, Doyice. Academic and athletic ability as popularity factors in elementary school children. Oct. 320.

Burke, Edmund J. Validity of selected laboratory and field tests of physical work capacity. Mar. 95.

Burke, Thomas R., and Peluso, Warren. Instrument for measuring directional movement speed under different environmental stimulus conditions. Oct. 520.

Burton, Elsie Carter. Relationship between trait and state anxiety, movement satisfaction, and participation in physical education activities. Oct. 326.

Burrus-Bammel, Lei Lane. Traditional ground stroke versus volley method of teaching beginning tennis. Dec. 597.

Caplan, Calvin S. Fatigue transfer in endurance performance. Dec. 603.

Cavanagh, Peter R., and Landa, Jean. A biomechanical analysis of the karate chop. Dec. 610.

Chew, Richard A. Verbal, visual, and kinesthetic error feedback in the learning of a simple motor task. May 254.

Colvin, William W., and Roundy, Elmo S. An instrument for the student evaluation of teaching effectiveness in physical education activity courses. May 296.

Coutts, Kenneth D. Leg power and Canadian female volleyball players. Oct. 332.

Crews, Thad R., and Roberts, John A. Effect of interaction of frequency and intensity of training. Mar. 48.

Cunningham, James, and Dowell, Linus. The effect of air resistance on three types of football trajectories. Dec. 852.

Darst, Paul W. Effects of competency-based intervention on student-teacher and pupil behavior. Oct. 336.

Del Rey, Patricia, and Steiner, Sheila. Pursuit-rotor performance of deaf and hearing girls. May 184.

DeOreo, Karen L. Dynamic balance in preschool children: Quantifying qualitative data. Oct. 526.

Dobbins, D. Alan, and Rarick, G. Lawrence. Separation potential of educable retarded and intellectually normal boys as a function of motor performance. Oct. 346.

Dunham, Paul, and Glad, Harold L. Simple coincidence-anticipation apparatus. Oct. 532.

Eckert, Helen M., and Rarick, G. Lawrence. Stabilometer performance of educable mentally retarded and normal children. Dec. 619.

Engs, Ruth C., and Kirk, Robert H. Health knowledge of crisis intervention volunteers. Mar. 121.

Index for Volume 47 (1976)

This index is composed of the following three subindexes: I. Bibliographical Index; II. Author Index; and III. Topic Index.

Entries in the bibliographical index have been alphabetized by the last name of the author or, in the case of multiple authors, by the last name of the senior (first) author. Reference information includes the name(s) of the author(s), title of the article, the month of publication, and the page on which it begins.

The author index cites the name of each author included in the volume, followed by the month(s) of publication and the page(s) on which the article(s) begin.

In the topic index, each article is listed under those important subjects about which the article provides information. The numbers refer to the initial page of the article(s) in which the topic is discussed.

II. AUTHOR INDEX

After the name of each author are the month(s) of publication and the page(s) on which the article(s) begin.

A

Alexander, Marion J. L., Dec. 575.
Allen, T. Earl, Oct. 299.
Andzel, Walter D., May 269.
Ayres, John, Dec. 638, 716.

B

Bah, Michael D., Dec. 716.
Bain, Linda L., May 154; Oct. 307.
Ballard, Joyce E., Dec. 590.
Barlett, H. L., Dec. 829.
Basler, Marilyn L., Dec. 586.
Biscan, Dianne V., May 161.
Blankenbaker, Joe, Oct. 320.
Block, Walter, Oct. 400.
Boileau, Richard A., Dec. 590.
Bole, Ronald, Oct. 316.
Brodie, David, Dec. 850.
Brooks, George A., Dec. 731.
Buchanan, Hugh Troy, Oct. 320.
Burke, Edmund J., Mar. 95.
Burke, Thomas R., Oct. 520.
Burrus-Bammel, Lei Lane, Dec. 597.
Burton, Elsie Carter, Oct. 326.
Burwitz, Les, May 277.
Buskirk, E. R., Dec. 829.
Byrd, Ronald J., Oct. 299.

C

Caldwell, Gordon, Mar. 9.
Cannistra, Carol, Dec. 692.
Capen, Edward K., Dec. 824.
Caplan, Calvin S., Dec. 603.
Cavanagh, Peter R., Dec. 610.
Cheffers, John T. F., Mar. 80.
Chew, Richard A., May 254.
Coleman, A. Eugene, Mar. 87.
Costill, David L., Dec. 815.
Cotten, Doyice, Oct. 320.
Coutts, Kenneth D., Oct. 332.
Crews, Thad R., Mar. 48.
Cureton, T. K., Dec. 666.
Cunningham, James, Dec. 852.

D

Danielson, Gwynne, Oct. 366.
Darst, Paul W., Oct. 336.
Davis, Richard, Oct. 569.
Dearholt, Donald, Oct. 540.

Evaluative Criteria (*Continued from page 879*)

adequate sampling of the relevant population. The significance of the findings for diagnosis, policy, or program should be indicated and justified.

6. Reviews and syntheses of research shall be judged on the basis of current significance of the subject matter, comprehensiveness, and the quality of critical analysis and skill in integration shown by the author.
7. The Communications section provides opportunity for:

   (a) Brief reports of a preliminary study or of an observation or finding which might have been incidental to another study or one which the author does not intend to pursue further.
   (b) Discussions of statistical techniques.
   (c) Clear, concise descriptions and/or diagrams of new research apparatus or techniques which have been developed by the author, or which are generally inaccessible, provided that reasonable demonstration of their value is given.
   (d) Brief, objective, well-considered critical comment on research previously reported in the RESEARCH QUARTERLY, and the author's reply to such comment.

III. TOPIC INDEX

Each listing is followed by the month and the initial page number(s) of the article(s) in which the subject is discussed.

A

aerobic power, of female athletes, Dec. 692; and running performance of children, Oct. 536
aggressive responses of athletes, Oct. 388
all-out vs steady pace effort, May 164
analyzer for measuring oxygen uptake, Dec. 869
anthropopometric measures, and female basketball performance, Dec. 575; of men in long-term program of activity, Dec. 666
anxiety, and gymnastic performance, Dec. 586; *see also* trait and state anxiety
apnea, effects of on cardiac cycle, Dec. 783
arousal, and gymnastic performance, Dec. 586
Åstrand-Ryhming test, three-year study of, May 211
athletes, personality of, May 203, 218
athletic ability and popularity in elementary school children, Oct. 320
athletic clubs, effects on athletic governance, Oct. 490
attitudes, and decision-making in children, Mar. 80; children's, and involvement and proficiency in physical activities, Dec. 797; of children toward females in sports, Oct. 453; toward motor learning, effect of KR on, Oct. 394

B

balance, dynamic, in preschool children, Oct. 526
base stealing, May 196
basketball performance, Dec. 575
behavior, leisure, and personality, May 226, 246
bias of experimenter, effect on performance scores, Dec. 776
biomechanical, analysis of karate chop, Dec. 610; correlates of psychological differentiation in females, Dec. 750, changes in improved distance running, Oct. 417; data and cubic spline functions, Mar. 9
birth order and sports preference, Mar. 62
blue laws, and sports, Oct. 357
body composition, swimmers', effect of training on, May 292
body image, Dec. 678; of adolescent girls, Dec. 804
brachial pulse wave and $\dot{V}O_2$ max, Dec. 857
bradycardia effects of jogging, Dec. 815

C

cadavers, body segment weights, volumes, and densities of, Oct. 542
cardiac cycle, effects on of apnea and face immersion in water, Dec. 783
cardiorespiratory, fitness, Mar. 110; testing, May 211
cardiovascular function, Mar. 48
catching performance, effects of color on, Oct. 409
center of gravity, Mar. 105
children, aerobic power and running performance of, Oct. 536; attitudes toward females in sports, Oct. 453; catching performance of, Oct. 409; decision making in, Mar. 80; fitness in, Mar. 110; hyperactive, Dec. 590; jump and reach by, May 260; motor behavior of, Dec. 726; playground equipment for, Oct. 472; preschool, balance in, Oct. 526
cinematography, Mar. 9; Oct. 557
cohesiveness, in athletic teams, Oct. 429
coincidence-anticipation apparatus, Oct. 532
color, ball and background, effects of on catching performance, Oct. 409
competency-based intervention, effect on student-teacher and pupil behavior, Oct. 336
competition, and state anxiety predictors, Oct. 381; effects of on aggression, Oct. 388; effects of on behavior, May 174
competitive trait anxiety, Dec. 698
computer, mini, as decathlon scorer, Dec. 860
construct systems of female athletes, Dec. 687
Cratty's body perception test, Dec. 678
crew, fitness of New Zealand teams, Oct. 506
cubic spline functions, Mar. 9
curriculum in secondary physical education, May 154
cycling strategy, May 164

D

deafness, effects of, May 184
decathlon scoring, Dec. 860
decisionmaking in children, Mar. 80
delinquency of adolescents, Dec. 845
Dempster cadaver data, Mar. 143; Oct. 542
diet, effect on calculations of $\dot{V}O_2$ and $\dot{V}CO_2$, Dec. 731
discovery learning, compared with guided instruction, Dec. 788
distance running, biomechanical changes from improvement in, Oct. 417
dynamometer to provide static and dynamic loads, Mar. 56

E

educable mentally retarded, and motor performance as discriminator, Oct. 346; stabilometer performance of, Dec. 619

ego development of football players, May 148
eighteenth-century writings on health and exercise, Dec. 756
elbow flexion force torque, Mar. 41
electrogoniometer output, Oct. 557
electromyographic study, fine-wire, Dec. 824
emotionally disturbed children, selected personality and motor variables of, Dec. 741
energy expenditure, of female athletes, Dec. 692
endurance, heavy work, Dec. 647; in women related to leg force and body composition, Oct. 366; performance and fatigue transfer, Dec. 603; and prior exercise, May 269
epidemiological study of a community, Oct. 400
error feedback, May 254
ethics, code of for players, Mar. 126
exercise, effects of on intraocular pressure, Oct. 436; long-term effects of, Dec. 666
experimenter sex and bias, effects of on performance scores, Dec. 776

F

fatigue, effects on timing, Dec. 839; transfer, Dec. 603
fatness and fitness, Oct. 400
feedback, error, May 254
female athletes, May 203, 218, 292; Oct. 332; Dec. 575, 687, 692, 750; and leg power, Oct. 332; sport experience and psychological well-being of, Oct. 375
females, endurance in, Oct. 366
field-dependence theory, Dec. 750
fitness, and fatness, Oct. 400; of men in long-term activity program, Dec. 666; in children, Mar. 110; teaching knowledge of, Dec. 683
fitness program, effects of on personality, Oct. 513
fitness testing, Mar. 86
football kick, Mar. 33; Dec. 852
football trajectory, effect of air resistance on, Dec. 852
force production capabilities of young boys, Oct. 464

G

girls and sport participation, Dec. 804
gluteus minimus and medius muscles, Dec. 824
goal setting behavior, May 174
golfer's groove, effectiveness of to improve golf scores, Oct. 569
grade, relation to motor performance, Dec. 726
growth, physical, of boys, Oct. 464
guided instructional strategies, compared with discovery learning, Dec. 788
gymnastics, judging, May 169; performance and arousal and anxiety, Dec. 586

H

handball teaching methods, Oct. 484
health knowledge, evaluation of among crisis intervention volunteers, Mar. 121; methods of teaching, Dec. 683; of young adults, Mar. 140
heart rate, and running in children, Oct. 536; response and work output of oarsmen, Oct. 506
hidromeiosis, Dec. 619
history of physical education and sports, Oct. 357, 499; Dec. 756
hyperactivity, in children, Dec. 590

I

imitation (as aid in learning motor skills), May 277
immersion (face in water), effects of on cardiac cycle, Dec. 783
instruction and practice, effect of on throwing with nondominant hand, Dec. 864
interpersonal relations, in athletic teams, Oct. 429
interval training, Mar. 110
intraocular pressure, effects of exercise on, Oct. 436
isometric training, effects of on young boys, Mar. 41

J

jail inmates and physical training, Dec. 638, 716
jogging, effects of on central circulation, Dec. 815
judging, gymnastics, May 169
jump and reach, by children, May 260

K

karate chop, analysis of, Dec. 610
kick, analysis of; Mar. 9, 33
knowledge of results, delay interval, Oct. 316; effects of on attitude toward motor learning, Oct. 394

L

leg, force and volume, in women, Oct. 366; power, Oct. 332
leisure activity, participation in and personality, May 246; preferences, May 226

M

maximal oxygen uptake, instruments to measure, Dec. 624
mental practice, and post-KR delay, Oct. 316
metabolic rate, effect on calculation of $\dot{V}O_2$ and $\dot{V}CO_2$, Dec. 731
methylphenidate, effect of on hyperactive children, Dec. 590
metronome for free running subjects, Oct. 540
modeling effects on motor performance, May 277
moment of inertia, May 143
motor ability, rhythmic, Mar. 20
motor and personality variables in emotionally disturbed children, Dec. 741
motor performance, as separation factor for EMR and normal boys, Oct. 346; modeling effects on, May 277; relation to grade, sex, and race, Dec. 726
motor set, effect of on reaction time and MEA, Dec. 709
motor skill learning, and retention and transfer, Dec. 788; effects of practice distribution on, Dec. 672
motivation, achievement, May 174

movement, analysis, May 161, 260; complexity, effect of on skill acquisition, Dec. 657; satisfaction, Dec. 326; time scores, Dec. 855
muscle electrical activity, effect of motor and sensory set on, Dec. 709

N

N_2 and ventilation and respiration, Dec. 731

O

obesity, uncomplicated, effect on pulmonary function, Dec. 829; *see also* fatness
Ohio State University Step Test, objectivity, reliability, and validity of, Oct. 445
O_2 uptake and N_2, Dec. 731
oxygen uptake, inexpensive analyzer for, Dec. 869; kinetics during steady state exercise, Oct. 490

P

personality, and leisure activities, May 226, 246; and motor variables in emotionally disturbed children, Dec. 741, of athletes, Mar. 68; May 148; differences after a physical fitness program, Oct. 513; traits, of college female athletes, May 203.
peripheral visual field, Dec. 768
physical activity, involvement and proficiency in, and attitudes of children, Dec. 797; long-term program effects of, Dec. 666
physical education, curriculum, May 154; participation in and anxiety, Oct. 326; teaching, May 296; Oct. 307
physical measurements and swimming speed, Dec. 810
physical training, and central circulatory adaptations, Dec. 815; effects of different durations of, Dec. 716; *see also* training and work capacity
physiological responses to training, Dec. 647, 716
playground equipment, criteria for selection of, Oct. 472
popularity, academic and athletic ability as factors of, Oct. 320
practice distribution, effects on acquisition of motor skills, Dec. 672
pretask speed training, Dec. 657
prior exercise and endurance performance, May 269
psychological, constructs, Dec. 586, 687; scaling, Mar. 126; Oct. 548; well-being of female athletes, Oct. 375; studies, May 188, 203; Dec. 687; *see also* personality
pulmonary function, in obesity, Dec. 829
punting, Dec. 852
pursuit rotor performance of deaf and hearing girls, May 184

R

race, relation to children's motor performance, Dec. 726
reaction time, effects of motor and sensory set on, Dec. 709; effects of stress on, Dec. 768; scores, Dec. 855
recreation, May 226, 246
respiratory exchange during steady-state exercise, Oct. 490
retention of motor skill, Dec. 788
rhythmic ability in children, Mar. 20
run tests, distance, Mar. 86

S

segment, ratio weights and centers of gravity, Mar. 105; mass, values of, May 143
self-actualization of athletes, Mar. 68
self-concept, of athletes, Mar. 68; of college women, May 188, 218
sensory set, effect of on reaction time and MEA, Dec. 709
sequence timing unit, Oct. 554
serial motor task, order of acquisition of parts of, Mar. 134
serum cholesterol, and fitness and fatness, Oct. 400
set, motor and sensory, Dec. 709
sex, effect of on children's attitudes toward females in sports, Oct. 453; relation to motor performance, Dec. 726; of experimenter, effect on performance scores, Dec. 776
slide-tape method of instruction, Dec. 683
socialization, and sport, May 238; institutional, Mar. 1
somatotypes, Dec. 575
squash, strategy in, Oct. 562
speed, directional movement, instrument to measure, Oct. 520
speed training, effect on skill acquisition, Dec. 657
sports, and socialization, Mar. 1; history, Oct. 357, 499; involvement, May 238; participation in by adolescent girls, Dec. 804; participation in and delinquency, Dec. 845; preference and birth order, Mar. 62
sportsmanship, Mar. 126
stabilometer, modification of, Dec. 850; performance on, Dec. 619; recording system for, Oct. 524
starts (for base stealing), May 196
state anxiety, among competitors, Dec. 698; and participation in PE activities, Oct. 326; in competitive situations, Oct. 381
steady-state exercise, effects of, Oct. 490
strategy, in singles squash, Oct. 562
stress, effects of on reaction time, Dec. 768
student-teacher behavior, Oct. 336
student ratings of teachers, May 296
sweat suits, effects on weight loss, Dec. 619
swimming speed, relation to physical measurements, Dec. 810

T

teacher evaluation, May 296
teaching, methods, May 296; Oct. 484; Dec. 597, 683; skills, May 161
team orientations, spirit, and success, Oct. 429

tennis teaching, Dec. 597
tests, effects of experimenter sex and bias on, Dec. 776; validity of for physical work capacity, Mar. 95
throwing skill, with nondominant hand, Dec. 864
timing, effects of fatigue on, Dec. 839; unit, Oct. 554
Title IX guidelines, Oct. 548
training, effects of on children, Mar. 110; effects of frequency of, Dec. 638; 716; effects of on swimmers' body composition, May 292; frequency and intensity of, Mar. 48; *see also* physical training
trait anxiety, and participation in PE activities, Oct. 326
trajectories, football, effect of air resistance on, Dec. 852
transfer of motor skill learning, Dec. 788

V

values, an instrument for identifying in PE programs, Oct. 307; in physical education, May 154
$\dot{V}O_2$ max and brachial pulse wave, Dec. 857

W

weight loss, from sweating, Dec. 630
weight training, circuit, hemodynamic consequences of, Oct. 299
work capacity tests, Mar. 48, 95
work output and heart response of oarsmen, Oct. 506; effects on of two cycling strategies, May 164
wrestlers, Dec. 630

STATEMENT OF OWNERSHIP—RESEARCH QUARTERLY

STATEMENT REQUIRED BY THE ACT OF OCTOBER 23, 1962; SECTION 4369, TITLE 39, UNITED STATES CODE SHOWING THE OWNERSHIP, MANAGEMENT, AND CIRCULATION OF THE RESEARCH QUARTERLY, published four times a year: March, May, October, December. Published at Lancaster Press, Inc., Prince & Lemon Sts., Lancaster, Pa. 17604. The general business offices of the publisher are located at 1201 16th St., N.W., Washington, D.C. 20036.

The names and addresses of the publisher and managing editor are as follows: Publisher, American Alliance for Health, Physical Education, and Recreation, 1201 16th St., N.W., Washington, D.C. 20036; Managing Editor, Nancy Rosenberg, AAHPER, 1201 16th St., N.W., Washington, D.C. 20036.

The owner is: American Alliance for Health, Physical Education, and Recreation, 1201 16th St., N.W., Washington, D.C. 20036. Names and addresses of stockholders owning or holding 1 percent or more of total amount of stock: none. Known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities: none.

Of the membership dues ($25.00), $5.00 covers subscription to the Research Quarterly.

The average number of copies each issue during the preceding 12 months are: (A) Total number copies printed (net press run): 13,500, (B) Paid circulation: (1) sales through dealers and carriers, street vendors and counter sales: none; (2) mail subscriptions: 12,000; (C) Total paid circulation: 12,000; (D) Free distribution (including samples) by mail, carriers, or by other means: 1,000; (E) Total distribution: 13,000. The number of copies, single issue nearest to filing date: (A) Total number copies printed (net press run): 13,000; (B) Paid circulation: (1) sales through dealers and carriers, street vendors, and counter sales: none; (2) mail subscriptions: 11,500; (C) Total paid circulation: 11,500; (D) Free distribution (including samples) by mail, carrier, or other means: 1,000; (E) Total distribution: 12,500.

I certify that the statements made by me above are correct and complete.

(Signed) Nancy Rosenberg
Managing Editor
